

June 2010

Dear Members and Friends of the Pan-Icarian Brotherhood of America 'Icaros':

Congratulations to all of our graduates from high school and colleges. May this be the beginning of many awards to come your way. It has been suggested that a year's membership to the Pan-Icarian Brotherhood be considered for the graduates. Remember, student membership is \$15.00, with most chapters charging \$25.00 or \$30.00 for their regular dues.

Icarian Cookbook: Our co-chairs, Jackie Moraitis and Tim Leakas, have announced that the deadline for receiving recipes has been extended to July 15th. In order for this project to be a success, they would like to obtain a minimum of 25 to 30 recipes from each chapter. Please take the time to review your recipes and see what you could share with us.

Delegates: Our Supreme Secretary, George Koklanaris, will be sending each chapter a registration form reporting their delegates to the Supreme Convention in Detroit. The number of delegates from each chapter is determined by the number of per capita submitted to our Supreme Treasurer, Terry Platis.

Chapter Updates: Scheduled visits for June include: Atheras #12 in Philadelphia, Icaros #7 in Pittsburgh, Pandiki #5 in New York City, Nea Icaria #15 in Long Island and Kousaros #18 in New York. Still working with Charlotte, N.C. for a new chapter.

Convention: Has your chapter placed an ad in the journal? Have you placed your individual or family ad? Have you made reservations for the hotel and reservations for the various functions to take place in Detroit?

Memorial Day: As we recently commemorated Memorial Day, let us also keep in mind the sacrifices and challenges made by our forefathers. They traveled to another country not speaking the language but willing to work to provide a better life for their families. This should make us all proud that we are our descendents of individuals that set high goals for themselves and higher expectations for those that followed in their steps.

Sonja B. Stefanadis, Supreme President
